

July 6, 1927.

Independence Canal & Res. Co.,  
Rochester, Utah.

Gentlemen;

RE: MUDDY CREEK DIST.

At the request of Senator Irvine this office made an investigation of the situation on Muddy Creek and it was my understanding that the preliminary expenses, until such time as the district might be organized, were to be taken care of by your Company. I cooperated to the fullest extent and went so far as to charge some of the travel expenses to my general travel account and think that you should let me have at your very early convenience a check covering the other items, bill for which I understand has been rendered you.

Yours very truly,

State Engineer.
